My name is Judith Dann and I came out to your campus in August of this year to work with the collection you have of the papers of Victoria Claflin Woodhull. I have to say that my trip there was so pleasant on a number of levels. It was tremendously exciting to see her papers and what I found there both answered many questions we have about her life and work as well as raised a number of new ones. What an exciting scavenger hunt we are on to piece together the life of one of the most important Americans in history! I also felt so welcomed and cared for while I was there by Nick and others in the library. I can’t thank you enough for your kindness and generosity.
